Evolution of our web site

The below update is now live :

- Correction of an issue with the **list of patronyms** – the women's surnames were not retrieved in some cases.

Do not hesitate to share your thoughts for improvements and new features, they will be discussed at our next General Meeting.

What are the "various documents" we indexed?

The Association digitalize and indexes the documents you send us. They are archived and stored by place (**Algeria, France, Italy, rest of the World**). You can find us on our web site.

These documents are of various kind: **Births, Marriages, Deaths, Sailors** et **Others**. In Others we can find documents like naturalization files, ID cards and passports...

In the **Sailors** category under **France**, you can find several indexes of various maritime areas such as Saint-Mandrier, Bandol and Bonifacio (Corsica) and others.

Recently new documents were added into our database: Civil marriages in **Naples** (Mercato) from 1813 to 1819 where one of the spouse is from Procida, Ischia, Forio or Casamicciola; **WWI** documents of soldiers born in Procida ; two records of death that happened on board of **Neapolitan ships** in the harbor of Mers-el-Kébir (Algeria).
