-- Advanced Search Engine --

## User's Guide v8.3 – 21 March 2024

### Introduction

All indexes and documents that have been computerized by our association are available on our web site thanks to a database and a powerful search engine and ordering system.

- **Members of the association**, up-to-date of their annual fee, can authenticate, access the search engine, update their user profile, order records and follow up the status of their current orders. They may also publish messages or share information with the other members, discover their cousins and access the online shop.
- **Visitors** can visualize the contents of indexes thanks to a simplified search engine and review by themselves the amount of work carried out by the association since 2003.
- The web site is provided in **4 languages** (French, English, Italian and Spanish).

### Access and authentication

The screenshot shows the website's header with the logo "la grande famille de procida et ischia", a "Sign in" button, the slogan "Preserve and understand our origins", and a "The Wall of Migrants" button. Below the header is a navigation bar with links for Home, Join, Search, Events, Publications, and Contact us, along with flags for France, Italy, the USA, and Spain. The main content area features a paragraph about the association's founding in 2003, a link to "Read the Articles | Brochure 2024", and a bolded statement about the benefits of joining. Two photographs of the "Wall of Migrants" in Procida are included, with the caption "The Wall of Migrants, Procida - 2022" under the top one.

- Check the current version of the running web site

Le “Terms and Conditions” menu allows you to view or download:

- The Articles of the association

The “Hello...” menu allows you to:

- Review various information on your membership, your current balance for records and the number of records currently in your basket.
- Log out and end your session.

## Menu: Search

This menu offers you several ways for searching:

- Search a record in a specific register
- Search a record in a period of years
- Search for an ancestor in the entire database
- Display all records of a specific register
- Find a record using its reference
- View the whole list of registers

### Displaying the list of digitalized and indexed registers

From the Search menu, you may access and display the list of registers that have been digitalized and that are indexed in our database. Click on the option:

## Searching

The first step for searching for records in our database is to define the scope of your search:

**Define the scope for the search**  
Place   My origins  All places  
Archive   
Register

1. Select a **Place** among those for which the registers were available and indexed.
  - By default, only the places (towns or regions) for which you indicated having roots, are listed in the list of places. If this list is not correct, then please update your origins in your profile.
2. Select an **Archive** for this place, or "All" if there is more than one (in the case you wish to include them all for your search).
3. Select the **Type of register** to use for your search ("Births", "Marriages", "Deaths", "Various", "Sailors", "Censuses" or "All" if you wish to run a global search).
  - Are available only the types of register for which at least one register has already been indexed.

### Search a record in a specific register:

**Search by**  Register   
 Contains  Starts with  Ends with  
Surname   
First name   
State  Sex

1. Choose the target **Register** in the dropdown list
2. Input your search **Criteria**

### Search a record in a period of years:

**Search by**  Starting from  to   
 Contains  Starts with  Ends with  
Surname   
First name   
State  Sex

1. Input the **Begin** and **End** years for the target period (4 digits)
2. Input your search **Criteria**

### Input your search criteria:

The search criteria differ according to the type of search and the type of record you're looking for:

- Input some text in at least one search field ("Name" or "First name"). It is recommended not to input an exact text but to prefer a part of the surname and/or the name.

Example: input "**maso**" in the "Name" field to find all "SCOTTO DI **MASO**", "DI **TOMASO**", "LUBRANO DI **MASONE**" etc.

- You may also use the **character "%"** to define a generic search.

Example 1: Input "**l%bran**" in the "Name" field to find all "**LUBRANO**", "**LOBRANO**", "**LUBRANA**" and "**LOBRANA**".

Example 2: Input "**cat%r**" to find all "**Caterina**", "**Catherina**", "**Catarina**" etc.

It is recommended to choose a search criteria neither too generic nor too specific.

- Keep in mind that the spelling of names and first names differs and evolves across the years and the registers. Remember also that transcription mistakes are possible and may exist in our database.

### Display all records of a register:

The screenshot shows a search bar with the text "Search by". To its right are two radio buttons: "Register" (which is selected) and "All records". Further right is a dropdown menu currently displaying "B01 (1600 - 1696)".

1. Choose the target **Register** in the dropdown list

### Find a record using its reference:

The screenshot shows a search bar with the text "Search by". To its right are two radio buttons: "Register" and "Record #", with "Record #" selected. To the right of the radio buttons is a text input field containing the number "153".

1. Choose the wanted **register** in the dropdown list
2. Input the **reference of the record**

### Change the sort order:

The screenshot shows a sorting interface. It has three dropdown menus: "Sort by" (set to "Surname"), "Then by" (set to "First name"), and "Then by" (set to "(none)"). Below each dropdown are two radio buttons for "Ascending" (selected) and "Descending". At the bottom center is a "Search" button.

- You can choose to change the default sort order ("name" + "surname").

## Search for an ancestor in the entire database:

**Define the scope for the search**

Surname  Born

First name  Died

Gender

*Look for an ancestor in the entire database, all the places registered and any type of documents we have.*

This feature allows you to search the entire database at once and locate in all cities, archives and indexed registers, any documents that could potentially be related to your ancestor.

1. Enter your ancestor's **surname** and **first name**
2. Indicate whether it is a **man** or a **woman**
3. Indicate exact or approximate years of **birth** and **death**
4. Note that all these fields are mandatory.

### Execute the search:

- Click the **“Search”** button or press the **“Enter”** key to execute your search.

The time it takes for your search query to complete may depend on your Internet link, the amount of users connected simultaneously on the web site and the complexity of your search criteria.

### The search results:

Once your search query is completed, the matching records are displayed in a result table:

**Define the scope for the search**

- **“Verified”**: The record has been reviewed by another member who completed it (at least partially).
- **“Validated”**: The record has been verified by an expert and the data can be considered correct and trusted.
- **“Missing”**: The record no longer exists in the register (missing page for instance) or could not be found.
- **“Damaged”**: The record is partially damaged and therefore cannot be completed.

### Browsing the results:

- Several tabs allow you to navigate through the various tables of results that are available when you choose the option to search “All” types of registers.

- Only the order options available for this document are available.
- **Greyed options** (such as translation requests) are dependent on having already ordered the document.

- Click the **"Add to the Basket"** button to add the document to your shopping cart.

### Order a search service:

- To order a document a search service, click the button: 
- A **pop-up menu** is displayed including only the various ordering options that are available for the selected document:

- Search services are automatically offered depending on the place of search, archive or years of the register.

- Before you place an order, you have the option to **specify useful information** for this search request.

- Click the "**Order**" button to send your search request directly. This type of order does not require validation of your cart.

## IMPORTANT: Several rules to know when ordering records

### Order management:

- Your available balance (for ordering new records) takes into account your past orders that have not been processed yet.
- The system imposes a **maximum number of documents per order** [10 records].
- The system imposes a **delay between two document orders** [7 days].

### Translations requests:

The system has the following limitations for translations:

- No **full translation** for documents older than year [1700].
- To order a translation of a document, **you must have already ordered the document**. The system automatically disables translation options if it detects that this is not the case.

*The translation costs are indicated on our web site at the "Registers" page or during the operation of adding the record to your basket.*

## Menu: Orders

The system automatically reconciles potential cousins and for each potential cousin the system lists the birth, marriage and death records that you have jointly ordered.

You can:

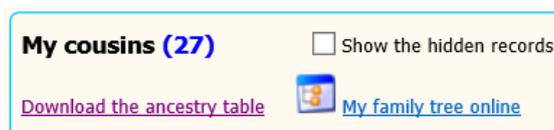

- Visualize for each potential cousin member your **common ancestors**.
- **Hide a record** that you may have ordered by mistake so that it no longer appears in the table, thus distorting the cousins. Check the box provided in the table.
- **Confirm a record** when it is your ancestor by checking the box provided in the table.
- **Unhide the records** that have already been hidden in the tables.

You can also download the **ancestry table** prepared and provided by the association since May 2016. This option allows you to **publish your family tree in the membership list**, so you can share it with other members.

1. Click "**Download the Ancestry Table**" (Excel template file named table\_v1.1.xlsx). Depending on the browser you are using, a window or message appears as below (with Microsoft Edge).

1. Fill the generation grid, the family tree will be automatically generated in Excel.
2. Send your file to [info@procida-family.com](mailto:info@procida-family.com) who will publish your family tree in PDF format in the list of members. This will only be visible to the members of the association.
3. Once processed, your **online family tree** becomes also available from this same screen:

#### Important notes:

- To be able to publish your family tree in the list of members on the association's web site, you must activate this option by checking the box "I wish to be included members list on the web site" in your profile.
- To publish your family tree and participate in our automatic cousin reconciliation project, you must activate this option by checking the box "I wish to participate to the cousins project" in your profile.
- Only members of the association who are up-to-date of their membership fee and wished to participate in the cousins project will appear in your potential cousins and will be able to publish their family tree.
