The Wall of Migrants

The Migrant Wall is the symbol of migration in the 19th and 20th centuries.

It pays tribute to these men and women, to their courage and determination, to chart a new destiny for them and their families by emigrating to other countries. The names of our migrant ancestors are engraved on a plaque affixed and visible on the physical Wall, complemented by a digital Wall, making their individual stories accessible online.

The Wall of Migrants – March 2022

To date, **batch #1** with its first 16 plaques - 64 migrants, have been engraved and deposited in Procida in March.

Batch #2 already has 4 additional plaques and will be brought in May!

To register your ancestor, flash the QR Code or visit our website.

End of registrations for batch #2: **April 3rd**
Inauguration to follow on **May 3rd** in Procida

Thank you and looking forward to meeting you there!

Death of Vincent SCOTTO DI VETTIMO

It is with great sadness that I inform you of the passing of Vincent SCOTTO DI VETTIMO on November 20, 2021 at the age of 86.

He was a distant cousin for sure, a faithful supporter of the association since 2005, but he was also a big brother, a good, warm and affectionate man, listening to each other...

It is hard to imagine that he will no longer be present in our encounters, while he will always remain so in me.
