

Roots Tourism
Photographic exhibition in Marseille
Friday 24 January 2025

The objective of this exhibition is to photographically tell the story of the journey of our ancestors from Procida and Ischia to North Africa and France. Thus, through various photographs and documents from your personal archives, we will try to highlight the courage and determination of these men and women who, willingly or by necessity, made the decision to leave their native island in search of a better and prosperous life for themselves and their children born or to come. The themes of the exhibition include departure, arrival, work, daily life, traditions and music.

This exhibition will be inaugurated on January 23, 2025 at the Italian Cultural Institute of Marseille in the presence of many personalities from Italy and France.

In order to take the time to retrace the journey of our ancestors, I am pleased to invite you to visit the exhibition together on Friday, January 24 at 9:30 am.

This morning (until 11:30 am) will be dedicated to us and we will pay tribute to the journey of our migrant ancestors and thank them for what they have given us.

I then suggest to follow with a convivial **lunch**. With René BARONE we are currently looking for a good restaurant to welcome us. To participate in the tour and lunch, I would be grateful if you would inform me very soon and send me 40 Euros per participant for lunch. The museum is of course free to visit.

Those who will not be able to come on January 24 can rest assured, the exhibition will remain in Marseille for several weeks!

The Wall of Migrants in 2025

Batch #5 for the registration of new migrants on the Wall of Migrants is now open. The next plaques will be installed in the spring of 2025. There are only 8 places, 32 migrants.

Take advantage of this new opportunity to register your ancestor and pay tribute to his life and courage.

You will find the registration form on the digital wall website: www.murodeimigranti.com
